EDUCATION

Georgia State University Atlanta, Georgia

August 2016 – present

Pursuing a B.S. in Computer Science

Expected graduation: May 2020

- Concentration in Computer Software Systems
 - Cumulative 3.22 GPA
-

WORK EXPERIENCE

Apple Cupertino, California

May 2019 – August 2019

Software Engineering Intern — Embedded Field Diagnostics

- Prototyped cross-platform app using SwiftUI for internal diagnostic suite
- Architected new iOS feature based on push notifications, and built proof-of-concept client implementation
- Worked with other departments to improve system frameworks

Ingenious Med Atlanta, Georgia

May 2017 – August 2017

Mobile & Web Automation Intern

- Updated and resolved issues with hundreds of automated tests for the Ingenious Med web and iOS apps
 - Collaborated with QA on application issues and intended functionality
 - Participated in regression testing on the web app
-

EXTRACURRICULAR ACTIVITIES

Personal Projects

- *Shifty* — Created open-source macOS menu bar app that gives more control over system feature Night Shift
 - Utilizes private Apple framework to control Night Shift because there is no first-party API
 - Collaborated with several other open-source developers to add features and fix issues
- *Blog* — Wrote comprehensive guide on implementing drag and drop with Cocoa's `NSTableView`
- *Scrollable NSSlider* — Published a Swift class that allows Cocoa's `NSSlider` to be adjusted by scrolling
 - Used as a dependency in applications by several other developers
- *Web Development* — Built responsive, static websites using Jekyll
 - Developed personal site at www.natethompson.io and project site at shifty.natethompson.io
 - Contracted to build website for indie developer — www.calstephens.tech

Organizations

- *PantherHackers* — iOS Interest Group Leader (*Sep. 2018 – present*)
 - Taught students iOS development basics with a curriculum including Swift, UIKit, and Auto Layout
 - *Georgia Tech iOS Club* — Senior Tech Lead (*Jan. 2018 – present*), Member (*Jan. 2017 – present*)
 - Worked with a team of officers to teach and present basic iOS concepts through weekly lessons
-

AWARDS & ACHIEVEMENTS

- *HackCU 2017* — won 2nd place for Siri web client *SiriQuery*
 - Built Mac app which passes audio recorded in browser to Siri then records, screenshots, and returns response
 - *DerbyHacks 2017* — won most technical hack award for cross-platform mobile game *Telephone Pictionary*
 - *Georgia Tech iOS Club Demo Day 2017* — won 4th place with app *Hangman*
-

SKILLS

- Strong experience with iOS & macOS development, Swift, Objective-C, and Java
- Experience with C, C#, JavaScript, HTML, CSS, MATLAB, and Android development
- Comfortable giving technical demos and oral presentations in front of audiences
